Members of the Board of Directors serve the ULS Foundation's mission of nurturing and building relationships with parents, alumni, grandparents, faculty, staff and friends and assist in securing resources to foster excellence at the University Laboratory School. Board Members serve a critical role in the review and approval of all annual appeal funding requests and operating expenditures. Members participate in many of the Foundation's activities, programs and events while serving as advocates for the school. All members of the ULS Foundation Board of Directors support the annual appeal with a yearly contribution.

The ULS Foundation accomplishes its mission in three ways:

- provides opportunities for members of the Cub community to partner with and connect their passions to programs and projects;
- raises funds for strategic initiatives that impact student learning across the K-12 spectrum; and
- builds and expands relationships through community education and awareness of the school's needs and successes.
